

Quality Solutions With You Every Step

HQTS

Your Supply Chain

Quality Management Partner

Introduction

HQTS is a leading global third-party supply chain quality assurance and control service provider, dedicated to solving quality issues and creating a more robust supply chain.

For over 25 years, HQTS has helped clients in the Consumer Goods, Commercial, Industrial and Government sectors, with a network of technical experts spanning more than 80 countries.

HQTS has a global reach and local presence in more than 20 countries worldwide. We have internationally-recognised product testing laboratories in key manufacturing regions and are accredited by several international regulatory bodies and international standards, including CNAS ISO17020, ISO17025 and CMA.

Our approach has always been customer-centric and we continuously innovate and push boundaries to meet the needs of a more sustainable future. We provide services upstream and downstream, covering quality inspections, testing, government and trading services, audits, training and consultation, quality engineering as well as other tailored advisory and sustainability services.

No matter what supply chain challenges you may face, we have the experience and expertise to deliver the best solutions for your business.

Our Purpose

Mission

To offer total quality services across the global supply chain in order to solve our clients' challenges anywhere and at any time.

Vision

To consistently provide fast, detailed and flexible quality solutions across the whole supply chain for a more efficient and safer world.

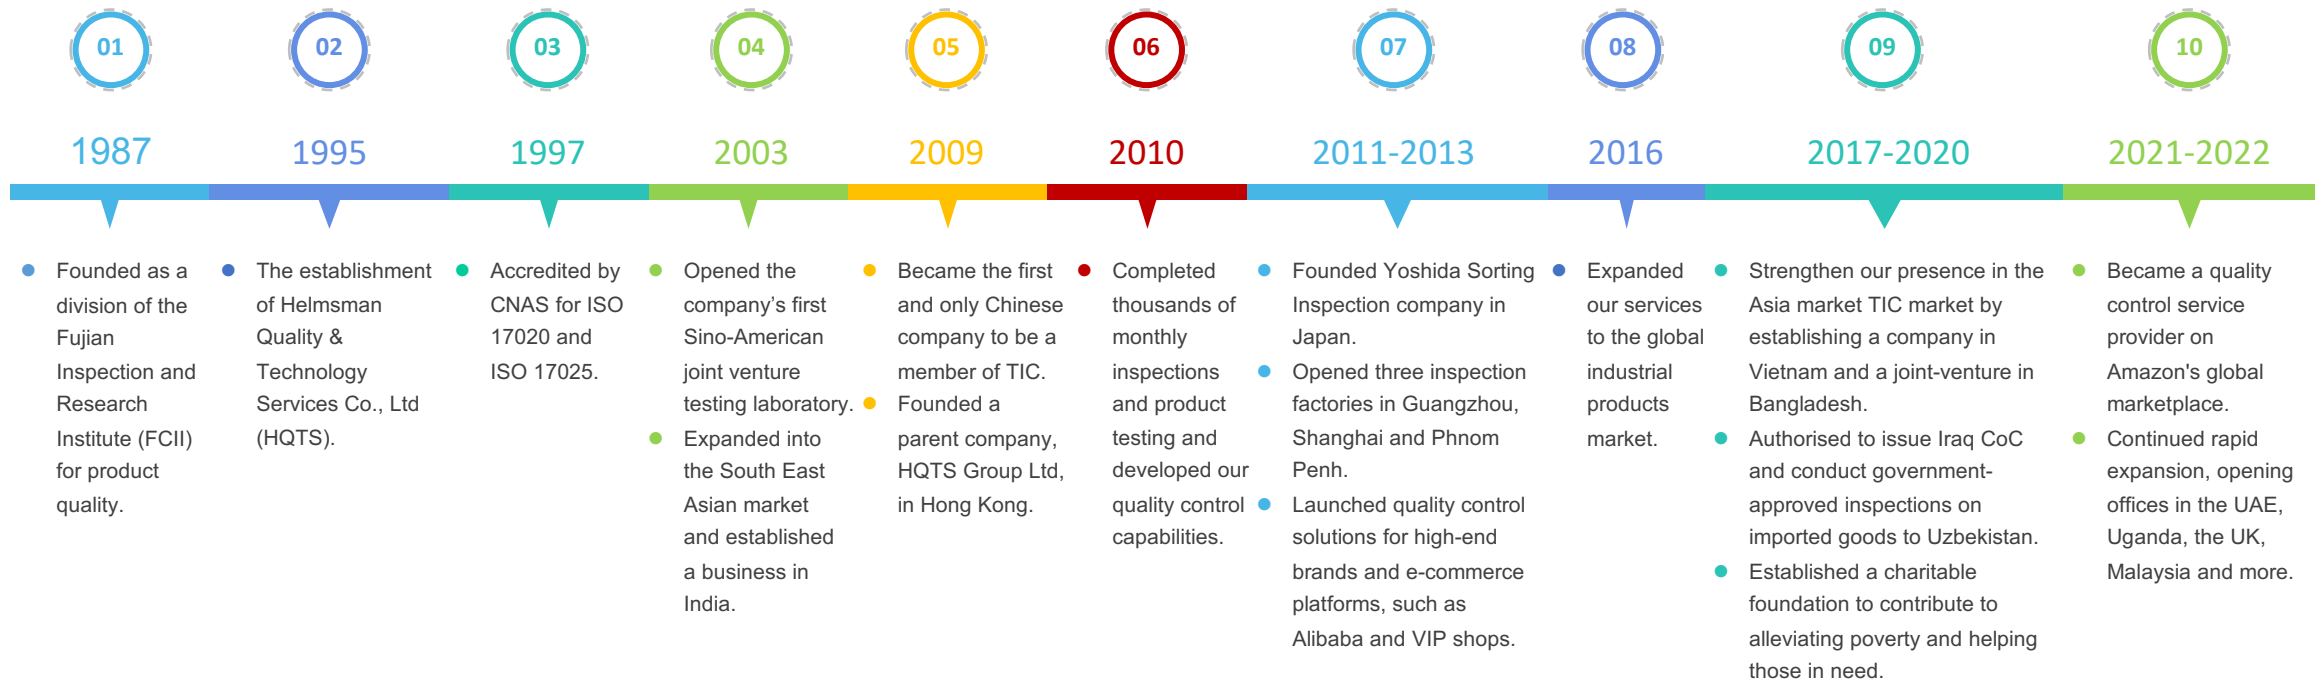

Values

HQTS identifies with *honesty*, *integrity*, and *trust*. We stand by these values in every action and decision we take at every level of our organisation and daily business practices.

Our Milestones

HQTS, originally a third-party inspection company focused solely on quality inspection, has become a dominant player in the TIC industry, offering customisable and technical services across the world.

Key Milestones

Global Reach

We are continuously expanding our global footprint to be closer to our clients. Our global reach and local presence in more than 20 countries, and a strong partner network ensure that we can quickly respond to inquiries and provide support anytime, no matter where you are.

Ethics and Integrity

Integrity

Integrity is ingrained in our organisation. Throughout our three decades of operational excellence, we have never compromised on integrity, regardless of the situation. In doing so, our operations and results are consistently held to the highest standards.

Transparency

As a customer-centric service provider and a neutral partner, our client's trust is of utmost importance. In remote locations, we not only have a responsibility to always be truthful to our clients at all times but also to report any information that could be useful to our clients.

Reliability

Only the strongest businesses survive in today's economic climate. Companies that consistently perform well and are reliable while maintaining a reasonable cost structure are more likely to build a competitive advantage; therefore, these benefits will be passed down to our clients.

Industry Expertise

We work with a full range of companies across multiple industries to help them ensure quality and safety in their supply chain and achieve greater success.

Consumer Goods & Retail

Food, Agriculture & Commodity

Oil & Gas

Government & United Nations Procurement

Energy & Power Plant

Automotive & Railway

Construction & Infrastructure

Consulting and Training

Inspection and Audits

HQTS third-party inspections and audit services can ensure the integrity of your supply chain and minimise the risk of underperforming products and processes.

We are accredited by multiple international regulatory bodies and standards. Our experienced full-time inspectors are certified and trained in conjunction with relevant international standards for inspection, audit and best quality management practices.

Our auditors can evaluate the integrity of your supply chain and ensure that each partner will meet the aspects of your production needs, from design and quality to product delivery requirements. Our auditing services range from verifying your supplier's legitimacy, sustainability and ESG alignment to a full inspection of their systems, products, processes, and employees.

Testing

HQTS can help you meet compliance standards and exceed performance standards with the help of our accredited state-of-the-art testing laboratories across all major regions.

We help businesses worldwide reach product compliance fast, for various consumer and commercial products. HQTS laboratories and testing services are accredited by multiple international regulatory bodies and standards, including ISO17025:2005 for testing by CNAS, AQSIQ Certificate of Qualification and more.

We understand governmental regulations and can test your commodities and materials to ensure they meet the applicable regulatory requirements and standards.

Government Certification

HQTS can help you obtain the necessary customs clearance for exports to gain access to emerging global markets.

We have a dedicated team to assist you at every stage to meet complex national and international requirements and experience a hassle-free customs clearance process.

We currently hold the rights to perform Certificate of Conformity certifications for shipments of regulated goods for multiple Countries around the globe including Europe, the Middle East, Asia and Africa, with many more coming. Please visit our website for further details.

The image shows two construction workers in silhouette, wearing hard hats and safety gear, standing on a steel framework. They are positioned on the left side of the frame, looking towards the right. The background is a bright, hazy sky, likely at sunrise or sunset, with a gradient from light blue to orange. The steel structure consists of numerous vertical and horizontal beams, creating a complex grid. The overall scene is industrial and focused on construction.

Quality Engineering

HQTS-tailored quality engineering services can help you achieve a consistent product quality, improve production efficiency, and advance your business for more technical needs.

Our in-house technical experts provide holistic engineering, production, and quality control supply chain solutions to help you optimise your products and processes. Our technical staff can identify critical factors impacting operations in terms of cost, supply chain, quality, and scalability.

Our technical specialists can help reduce fluctuations in your operations that may cause product quality problems and quickly take your product idea from the ideation stage to mass production.

Sustainable Solutions

HQTS can evaluate your green performance and help you accomplish your sustainability goals.

Climate change has profoundly affected our society, and businesses face increased demand from stakeholders to improve transparency in their supply chain and meet performance targets.

Our experts can support your business in its journey to becoming an organisation committed to sustainability.

We can help you assess your environmental credentials, ensure ESG compliance with national/international environmental policies and regulatory compliance frameworks, and refine your existing processes to mitigate risks in your entire supply chain and alleviate stakeholder concerns.

Consultancy

HQTS is renowned in the industry for its quality assurance, quality control, and ethics training protocols and systems.

Whether you need help to achieve global compliance, consulting on quality management and ISO certifications, project management, or help your employees acquire valuable knowledge from industry-leading experts.

HQTS advisory and training services can be customised to solve any present challenges in your business operations and excel in future challenges.

Training

Backed by nearly 30 years of experience, HQTS will help your organisation overcome its supply chain challenges.

HQTS training programs cover a range of topics related to our core competencies in *quality assurance*, *quality control* and *ethics*. Our turn-key training programs include auditor training for ISO9000, ISO14000, OHSAS18000, HACCP, ISO/TS16949, staff training for quality assurance and quality control, performance standards and more.

We understand that every organisation has their own set of challenges and expertise. Whether you are a beginner or an expert - HQTS will provide relevant subject matter experts and tailor the training course to meet your needs.

Client Testimonials

We are the preferred quality partner for thousands of companies across the globe. Our industry-leading knowledge of quality control inspections, factory and supplier audits, and technical services across many verticals has helped our clients solve their challenges and grow their businesses.

"Thanks so much for the wonderful and professional service. Your team is highly competent and courteous to all our staff. It was a great joy and we will highly recommend your services to our industry partners."

HOMETRUST
Homeware

"I meant to tell you thank you for such a pleasant cooperation! We like your reports and working with you (HQTS). It is a pleasure to work with such a professional and competent team! We will continue to send you orders in the future and we will certainly recommend you to our partners and friends."

SOPREMA
Auto

"We have been working with HQTS for approximately 3 years, very quickly in our working corporation we began to realize how invaluable HQTS inspection service is to us. Their willingness to work as closely as possible with us to meet our exacting and precise standards is what sets them apart from their competitors. Professionalism, approachability and flexibility are the words I would use to sum them up."
