

ABOUT HQTS

HQTS is a leading global third-party quality control service provider dedicated to solving quality issues across the entire supply chain to businesses around the globe.

Manufacturers and importers of electronics must conform to strict safety and quality standards. But with products produced and assembled in multiple factories and components sourced from numerous suppliers, ensuring quality can be difficult.

For over 25 years, HQTS has helped 50,000+ clients in 80+ countries prevent supply chain quality issues and ensure compliance. We have internationally recognised testing laboratories in key manufacturing regions, accredited by multiple regulatory bodies and standards such as ISO17020:2012 and ISO17025:2005 by the China National Accreditation Service for Conformity Assessment (CNAS).

Our technical experts and inspectors are trained to international standards and constantly updated on the latest best practices in identifying quality defects in the electronics industry.

OFFICES

1,500+
PROFESSIONAL STAFF

Founded in 1995, HQTS Group is a leading provider of quality control services.

HQTS is your one-stop total quality partner in the electronics industry, delivering fast, reliable, and customisable quality assurance services at a great value.

QUALITY INSPECTION

HQTS offers inspection services at various supply chain stages, covering multiple criteria such as quantity verification, product durability, craftsmanship, performance, functionality, labelling and packaging, and more.

- Pre Production Inspections
- During Production Inspections
- Pre-Shipment Inspections
- Piece by Piece Inspections
- Container Loading/Unloading Inspections

AUDITS

HQTS can assess your supplier's or manufacturer's quality systems, facilities, capabilities, and other criteria to verify whether they can deliver products that consistently meet your standards.

- Factory Audits
- Supplier Audits

PRODUCT TESTING

HQTS has its own internationally recognised testing laboratory and a network of accredited laboratories.

- **Compliance:**
RoHS, REACH, CE/UKCA Marking, CPSIA etc.
- **Functional Testing:**
HIPOT, Earth, Power etc.
- **Safety Testing:**
Chemical, Flammability, Stability etc.
- **Package Testing Services:**
ISTA Testing.

SUSTAINABLE SOLUTIONS

HQTS can help you achieve your sustainability goals across your entire supply chain.

- ESG Services
- Social Compliance Audits
- Environmental Audits
- Energy Audits

SUPPLIER QUALITY ENGINEERING

HQTS team of supplier quality engineers can ensure that your product quality is upheld at every stage of the supply chain journey. The services cover the three major stages of the electronics industry supply chain.

SUPPLIER EVALUATION AND AUDITS

Evaluate the supplier and conduct factory audits to ensure they meet the required specifications.

DESIGN AND DEVELOPMENT / NPI

Help your business to develop and introduce new products, including assessing and managing processes, evaluating product lines and their efficiency.

PRODUCT ENTERING MASS PRODUCTION

Identify and correct defects before shipment, including rigorous documentation of the production process, inspections and continuous improvement.
